## REPORT OF THE LIBRARIAN

1943-44.

*To the President of the University:*

SIR: I have the honor to submit the report of the Librarian of the University Library for the year ended June 30, 1944.

The Germans have made us familiar with the problem of the *Lebensraum*, but they have no monopoly or vested right in the idea. At least one American political writer has emphasized the fact that the solution of political and economic space conflicts must be based upon a conception of "One World." The metaphysicians embrace not one world, but a whole universe in their often profound theories of space. For a librarian the Kantian theory that space, like time, has no transcendental reality—that it is merely a form of our empirical perception—has a fascinating attraction. But alas! for the librarian as a keeper of books, the problem remains entirely in the empirical world, and has a reality which at times threatens to become overwhelming, and his objects acquire a weight that is nothing short of crushing.

Books, in this empirical world are, like facts, stubborn things. No wholesale resort to microphotography will solve the space problem entirely. Whether we deal with microphotographs or with normal books, the axiom of empirical physical science, that no two objects can occupy the same space is still valid. We have not, as yet, discovered a micro-substitute for the human library entity known as a staff member. To be sure, we have, at Cornell, come close to a demonstration that two or more staff members can exist and work in the *lebensraum* that would normally be assigned to one of them alone; but it is not a happy demonstration.

Wise planning would really demand the serious consideration of a substantial addition to the library building. More and more often it has been found necessary to remove a group of books from some crowded region to a region, which is, for the moment, not filled. But this introduces an element of disorder and lack of system which is irksome to employees and to users alike. During the past year, it was found necessary, in order to make room for new acquisitions in the much used parts of the library, to move no fewer than 541 whole presses or sections of books, many of them to illogical or not very accessible locations.

### STAFF

The war condition which brought about a difficulty in maintaining staff work at the required level is unchanged. Part time helpers, chosen from the student body, became more and more scarce. Women students have, to a certain extent replaced male students. Mr. Frank W. Tozer was appointed as library helper to fill a vacancy. Mrs. H. Rosalind Speed and Mrs. Muriel F. Bennett resigned as cataloguers. Mrs. Annaliese Funke and Mrs. Dorothy M. Young were appointed as cataloguers.

This year has seen the publication of a second supplement to the catalogue of the Fiske Icelandic Collection, the "Additions 1927-42" compiled by HALLDÓR HERMANSSON and published by the Cornell University Press, a volume, including the subject index, of 295 quarto pages. The generous aid of the Carnegie Corporation made the printing of this work possible.

Dr. Henry H. King, the Library's Faculty Research Assistant, has had a significant share in the preparation of material for the following works, published within the last two years:

FABRICIUS, HIERONYMUS, "The embryological treatises of Hieronymus Fabricius of Aquapendente. . . a facsimile edition, with an introduction, a translation and

a commentary by HOWARD B. ADELMANN." (Ithaca, 1942). "GEORGE LINCOLN BURR, his life by ROLAND H. BAINTON, selections from his writings edited by LOIS OLIPHANT GIBBONS." (Ithaca, 1943). STEPHENSON, CARL, "Mediaeval history, revised edition". (N. Y., 1943). LAISTNER, M. L. W. "A hand-list of Bede manuscripts, with the collaboration of H. H. KING." (Ithaca, 1943). BEDE, THE VENERABLE, "Bedæ opera de temporibus" edited by CHARLES W. JONES". (Ithaca, 1943).

#### ACCESSIONS

The total amount expended for books, periodicals and binding, according to Miss Ingersoll, Supervisor of Accessions, was \$26,716 as against \$30,805 in the preceding year. The total number of volumes added to the University Library's accession books was 14,461 of which 11,462 were for the general library and 2,999 for special collections and for department or college libraries. For the General Library, 3,861 were purchases and 7,601 were gifts or exchanges.

#### GIFTS

The number of donors entered on our list for this year is 600. Of the books added to the general collection 7,618 were gifts or exchanges as compared with 3,861 items received by purchase. The comparatively small proportion of purchased items is due to the closing of the continental European markets. Our gifts are almost entirely of American origin. The number of periodicals which come to us by gift, 1,249, exceeds the number for which we pay subscriptions, 1,023. Many of them are gifts of learned societies; others come from the editors or publishers. Some are the gifts of faculty members who subscribe and pass their copies on to the library when they have read them. As the files grow longer, our annual offering of thanks is weighted with a growing sense of obligation.

The Cornell University Library Associates have continued their highly acceptable offerings. This year they secured for us A. S. W. Rosenbach's "Catalogue of Children's Books", Herbert and Lou Henry Hoover's translation of Georgius Agricola's "De Re Metallica", Berthold Seemann's "Flora Vitiensis; a description of the plants of the...Fiji Islands" (London 1865-73) and 66 volumes of the Transactions of the College of Physicians of Philadelphia.

Welcome cash donations were received from Mrs. Louise F. Peirce, from Professor Walter H. French, and Professor J. F. Mason. The steady succession of gifts from Miss Mary J. Hull and the estate of the late Professor Charles H. Hull and from Mrs. William F. E. Gurley remained unbroken.

Through the generosity of Mr. Victor Emanuel, the Wordsworth Collection was enriched with eight autograph Wordsworth letters, an autograph poem en-

titled "Christmas Day" by Dorothy Wordsworth, an autograph MS "written by Aunt Wordsworth [Dorothy] for Dora W———'s Green Book", three autograph letters by S. T. Coleridge and a ten-page autographed MS of De Quincey pertaining to Wordsworth's poetry; also several Wordsworth association books.

Six autograph letters of Goldwin Smith were received from Mr. Harry N. Barry, two letters signed by William H. Sage came from Mrs. Gurley, and an autograph letter of Samuel J. May, Massachusetts abolitionist, from Mr. Curtis W. Garrison.

The largest gift of books came to us by the bequest of the late Stewart H. Burnham, for many years Assistant Curator in the Department of Botany. Among the more than 2,000 volumes of Mr. Burnham's library were many books in the field of natural history and a number of interesting Lincolniana. Another and a most significant bequest came to us by the will of James McCall, of the Class of 1885, attorney in Bath, N. Y. The collection numbered 512 books, about 250 pamphlets, four wall maps, and 40 volumes of newspapers. Mr. McCall was keenly interested in local history and his collection included many highly desirable acquisitions of town and other local histories of New York State and New England. One item of some rarity is Charles Williamson's "Description of the Genesee Country" (Albany, 1798). Still more rare (only two copies are known) is the pamphlet, perhaps by the same author, "A view of the present situation of the Western parts of the State of New York, called the Genesee Country" (Frederick-Town [Md.] 1804).

From the Department of Botany we received about 250 books and pamphlets from the library of the late Professor of Botany, Karl McKay Wiegand. The botanical correspondence, memoranda, learned society papers and documents of Professor Wiegand were carefully classified and ordered by Professor Robert T. Clausen and deposited in the University Library.

Other gifts of books came from Miss Harriet B. Sumner (215 vols.), Mrs. A. L. Warnshuis (186 vols.), Professor C. V. P. Young (132 vols.), Miss Helen M. Cobb (65 books and pamphlets), Professor Ralph S. Hosmer (58 vols.), Mr. Vaughan MacCaughy (35 vols.), Professor Walter F. Willcox (26 vols.), Professor and Mrs. A. H. Wright (20 vols.), Professor Cony Sturgis (20 seventeenth century maps of Spain and Spanish America and 18 miscellaneous volumes).

Mr. Carter R. Kingsley, Class of '96, of Bath, N. Y. has long been one of the Library's actively interested friends. He is not only generous himself, but is the cause of generosity in others. His own contributions this year included 39 miscellaneous volumes.

From Mr. James S. Elston we received the Magazine of Wall Street, vols. 18-48, 52-54 (1916-1934); the Journal of the Royal Statistical Society, vol. 85-91 (1922-1928), Life Insurance Laws 1911-1917, 1921, 1930-1940. From Mr. Merritt M. Landon—The Hammondsport Herald, vols. 1-55 (1874-1928) and and The Keuka Grape Belt, vol. 56-62 (1929-1936).

Through the efforts of Professor A. H. Wright we received among other things from the City of Lockport, N. Y. 34 vols. of the Proceedings of the Lockport Common Council (1893-1934); from the New Hampshire Historical Society, 23 volumes of the Manual for the Use of the General Court of New Hampshire; and from the New Hampshire State Library 80 cartons of Canadian Public Documents.

Dr. Nellis M. Crouse continued his donations with seven volumes chiefly on the history of French America. Miss Elsa de Haas gave us her "Antiquities of Bali". From Mr. Beverly Fleet came his "Virginia Colonial Abstracts", vol. 19. Mr. W. D. Funkhouser sent us his "Portraits of Kentuckians" and his "Kentucky Backgrounds". Such donors, even though they may not be officially enrolled in a formal organization are none the less true friends of the Cornell University Library.

Otto Kinkeldey,  
Librarian.
